UI/UX designer specializing in user research, product design, and design systems, validating design decisions through structured usability testing and delivering production-ready Figma interfaces, with experience in front-end development.

Experience

Freelance — UI/UX Designer & Front-end Developer

Present

- Delivered a responsive real estate landing page in Figma on a paid basis.

Web Development Intern — Elinnov Technologies Inc.

Jun 2024 — Aug 2024

- Maintained and updated frontend content across live production websites using WordPress and Adobe Experience Manager, working within established CMS workflows in a professional team environment.

Projects

Triagent — AI Doctor Recommender Chatbot (Figma)

Jun 2024 — Sep 2025

- Owned end-to-end interface design for a mobile-first health application, producing 40+ screens across onboarding, symptom input, and doctor recommendation flows, prototyped and delivered in Figma.
- Conducted five rounds of user research and usability testing across 20+ interviews and 50+ survey respondents, leading sessions, transcribing findings, performing thematic analysis, and applying iterative design improvements based on results.
- Nominated for Most Outstanding Thesis, DLSU College of Computer Studies.

Array — Mentorship Platform (Figma)

Sep 2023 — Dec 2023

- Served as sole designer on an eight-person team, delivering a handoff-ready design system of 40 to 50 screens for a shipped mentorship platform covering journaling, calendar, and markdown review flows.

Arche — Campus Social Connectivity App (Figma, React Native, Google Maps API)

Oct 2023 — Dec 2023

- Designed a 20- to 30-screen Figma prototype for a campus location-sharing application, addressing user trust and permission concerns around live location sharing, and developed the frontend of real-time map features.

Influx — E-Commerce Buy & Sell Platform (Figma, Next.js, TypeScript, Supabase)

May 2023 — Jul 2023

- Designed the complete UI for a niche student marketplace, including product listings, a timeline feed, and search functionality, and contributed to full-stack implementation as an academic project.

Senge — Student Productivity Messenger, DLSU LSCS UI/UX Design Competition (Figma)

Nov 2022

- Redesigned Facebook Messenger for a student audience, integrating kanban boards, class grouped chats, widget support, and third-party webhooks into a unified academic communication tool, delivering a complete Figma prototype within a four-day competition timeline.

Education

De La Salle University, BS in Computer Science, Software Technology

2021 — 2025

iACADEMY, SHS Software Development Strand, Graduated with High Honors

2019 — 2021

Skills

Design Tools: Figma, Framer, Adobe Photoshop, Adobe Illustrator

Research Methods: Usability Testing, User Interviews, Thematic Analysis, Survey Design, Iterative Design

Languages & Frameworks: HTML/CSS, TypeScript, JavaScript, React, Next.js, Tailwind, Git

Core Concepts: UI/UX Design, Design Systems, User Flows, Wireframing, Responsive Design, Web Accessibility, Component-based Architecture
